SPEAR

REF: CM3023

DESCRIPTION

The imponant Spear Door Handle was inspired by the Celtic sun god that possessed the "Invincible Spear". A legend has it that the spear was blazingly hot, and it became hotter the longer it was used. It was stored in a vat of water at night to keep it from catching fire and scorching the earth.

Honoring Celtic culture and myths, PullCast's designers projected this mythical mid-size door pull made with polished brass and Alabastro Marble to bring a powerful statement into the main doors.
